BENEFITS

THE TOTAL GARDEN CENTER SYSTEM

- Low capital investment
- Property tax & building permits are not an issue
- The most cost effective method of testing the market
- Quality of design, manufacturing, and material
- Structures are 'engineer approved'
- Portable
- Unique, boltless assembly
- Less waste & better quality product
- Increased sales
- Draw new customers to stores with first class garden centers
- May be used for satellite locations from your permanent garden centers
- Temporary seasonal use
- Not committed to particular location
- Build additional new businesses (i.e. Supply landscapers & builders with horticultural supplies)
- Different seasonal applications (i.e. Fall-mums, cornstalks, hay bales, pumpkins; Xmas-trees, wreaths, garlands, sprays)
- Proven success with majors over several years
- Appearance and display is everything
- Customers demand better products and service which our system gives them
