SHADE STRUCTURES

The Original SHADE & DISPLAY® System

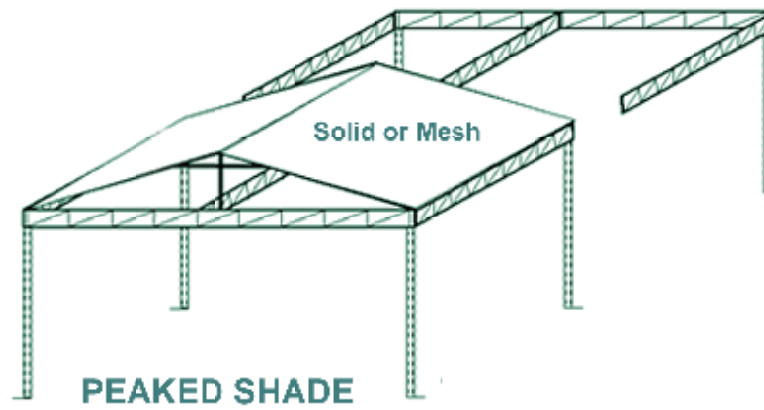

Features & Benefits

- Protects plants from sun and rain.
- Provides an excellent customer and plant friendly setting for marketing floral goods.
- All steel components are hot dipped galvanized for years of service.
- Canopies manufactured in our factory with top quality 18oz Fire Rated vinyl and Fire Rated vinyl mesh
- Edges are reinforced with webbing and have brass grommets for strength and ease of installation.
- Vinyl and mesh are available in a wide color range.
- Units are designed to be as boltless as possible to simplify installation and take downs.
- Our Shade Structures may easily be expanded because of our unique interlocking modular system.

Options

- Frost and Wind Protection
- Flower Rails
- Automated Plant Irrigation
